April 19-25 Is Spring Clean-Up Time Over Entire Plant

LET'S CLEAN UP THE JERNT, says the above Spring Clean-Up committee at their recent initial meeting. The twenty men have been assigned definite areas in the plant and together with their

inspectors will search out areas that need special attention. April 19-25 has been set aside as Spring Clean-Up Week in Y-12, and the above committee seeks to do just that .

SOME OF THE AWARDS to be given to the best clean-up inspec-

tors in the plant are inspected by Irene Carmack, above. An

Chemical Engineer Meet Set For Next Wednesday

The Knoxville-Oak Ridge Section of the American Institute of Chemical Engineers meets next Wednesday, April 22. The program is set for 7:30 p.m. in Room 18 of the Oak Ridge Institute of Nuclear Studies' training build-

Featured speaker is Dr. Ralph Larsen, Division of Air Pollution, United States Health Service, Cincinnati, Ohio. He will speak on "Air Pollution and its Effects."

All chemical engineers and others interested in the subject are cordially invited to attend.

'The peculiarity of the New England hermit has not been his desire to get near to God, but his anxiety to get away from man.'

20 Sections Name Their Area Marshals

Next week (April 19-25) has been officially designated as Spring Clean-Up time in Y-12!

Since human beings are prone to have a let-down during the winter months and push things aside and wait for a more appropriate time to get rid of them, the blush of Spring is always chosen for this express purpose.

The plant has been divided into 20 geographical areas for the activities during next week.

The week offers an excellent time to get rid of obsolete materials, trash and rubbish and give work areas a general clean-up for the balmy months ahead.

Marshals With Badges

Each of the 20 areas in the plant will have a Clean-Up Marshall, appointed by the Clean-Up Chiefs (Department coordinators), who in turn will appoint Clean-Up Inspectors to inspect the departmental facilities. Badges will so identify these people who will be in your area sometime during the week.

Spring Clean-Up inspection blanks are available from the Fire Prevention Department.

A number of safety awards (one for each area) will be made available to the inspectors doing the most outstanding job in detecting and effecting removal of fire and safety hazards.

Safety Emphasis

All April safety meetings will emphasize the agenda of Spring Clean-Up activities.

Probably no single factor contributes more to the breeding of small fires and their subsequent growth into large and destructive ones than "poor housekeeping."

Careless smokers, sparks from welding torches, electrical equipment, or passing industrial lift trucks can cause fires. All it takes is a spark dropped into a combustible area. Certain types of oil-soaked rags, paint residue, and dirty wiping cloths are also fire breeders. Unless such waste material is confined in automaticclosing, tightly covered containers, picked up regularly, and safely disposed of, avoidable fires can occur.

Call Salvage

Marshals will take the necessary action to get his area cleaned up, and will request assistance from the Maintenance Division for removal of accumulated trash and rubbish. Salvage's telephone is 7972.

The 20 marshals appointed are as follows:

C. C. Neimeier, Maintenance, East End

F. J. Sherrod, Materials and Services

H. J. Hicks, ORNL, 9207

L. R. Phillips, Development, 9202

Don G. Hill, Maintenance, Research Services C. L. Pigott, Technical Services

H. C. Wright, Industrial Rela-

G. L. Tate, Fabrication, 9201-1 Continued on Page 4

Cannon Balls Still In E **Bowling Lead**

The E League continued its long flight into history last week as the Cannon Balls increased their hold on first place by taking four from the Ten Pins. The Alley Bees won three from the Pinquins and the Foursquares shone on the bowling alleys by plastering the Pintwisters for four.

Dwayne Bennett, Foursquares, took most individual honors, with singles of 206 and 228 and series scratch tally of 529. W. Parrott, Ten Pins, took high series handicap scores with a 606.

The Foursquares went all the way on the team board with singles of 676 and 785 and series in the order of 1952 and 2389.

League standings follow:

Pace Burial Is At Hohenwald

Beta Four's Heavy Machine Shop sadly marks the passing of Mr. James E. Pace. He died Wednesday, April 8, at his Oak Ridge home, 204 Bunker Lane.

A native of Hohenwald, Tennessee, Mr. Pace came to Y-12 on January 26, 1959 . . . after

working almost seven years at Oak Ridge Gaseous Diffusion Plant. A veteran of combat action with the United States Army in the Pacific during 1943 - 1946, he was a mem-

ber of the Masonic Order.

Surviving are his wife Mrs. Betty Cotham Pace; a daughter Peggy Pace, Oak Ridge; parents Mr. and Mrs. Sam T. Pace, Farmers Exchange, Tennessee; three additional monomers reactor, an brothers John A. Pace, Charleston, West Virginia; Homer L., Hohenwald; and Donald O., Donalson. A sister Mrs. Melba Cash, Camden, also survives.

Memorial services were read at 6:30 Wednesday, April 8, at 6:30 p.m. at the Martin Funeral Chapel. Funeral services were held Friday, April 10, at 2 p.m. at the McDonald Funeral Home, Hohenwald. Burial followed

Deepest sympathy is extended to the Pace family.

Spring Clean-Up is coming!

Since Spring is the natural time to get everything in order . . . or find "a place for everything and everything in its place," as Fire Protection puts it, employees are all expected to lend their usual cooperation. Let's get the place spick and span and be ready for a safe summer of work.

Yonts, Guest Conduct Thermonuclear Seminar

Oak Ridge National Laboratory's Thermonuclear Division announces its seminar this week "Ion Beam Stabilization." Conducting the discussion will be O. C. Yonts and G. E. Guest of the TN Division.

The seminar is set for Thursday, April 16, at 9 a.m. in the Conference Room of Building
